Wester Ross Fisheries Ltd	Corry Farm	0.00

**Notes to support the table**

Sea lice are adult females, presented as monthly averages (per fish).

Farms count sea lice every week. Figures are reported by calendar month. Therefore some months include five full weeks and some include four full weeks to cover the 52 weeks of the year.

"Fallow" = the farm was fallow or empty throughout the entire reporting month.

"Farm stocked in Mar." = the farm was fallow or empty at the start of the month but was restocked during the month.

"Farm fallowed in Mar." = the farm was stocked at the start of the month but became fallow or empty during that month.

"No count – harvesting" = fish were being harvested throughout the month. Under such circumstances it is not always possible to record the lice count.

"Broodstock fish - visual checks" - the fish on the farm are broodstock and they were checked visually without removing them from the water.

**Statistics for March 2019**

There are 195 active salmon farms in Scotland.

Of these, 161 (or 83%) were stocked at some point during March 2019.

This means 34 (or 17%) of the active farms were fallow or empty throughout March 2019.
